Nunavik Regional and Private Business Directory
Table of Contents

Welcome to the 2012 Northern Lights edition of the *Nunavik Regional and Private Business Directory*.

This booklet provides an authoritative listing of businesses in the region for those governments, organizations and companies having adopted a priority of contract opportunity policy recognizing businesses owned and operated by residents of Nunavik. As well, it is a guide to anyone interested in sourcing goods and services from the region.

The Kativik Regional Government considers two types of businesses as being “Nunavik” in nature. The first group is those owned by the collectivity of the region, whether their headquarters or primary administrative office is located in Nunavik or elsewhere. These are primarily the subsidiaries

of Makivik Corporation and the Fédération des coopératives du Nouveau Québec, as well as other regional organizations. The second group is those privately-owned businesses which are based within the region itself.

Recognizing that many seasonal or micro-businesses are therefore not in regular operation, we have applied the notion of *willingness to undertake contracts* as the primary criterion for inclusion. In other words, even though a business may not have been in operation for the previous period, if the owner is willing to take on a contract, we have deemed it suitable for the purposes of this publication.

This current publication contains information on 123 individual businesses involved in over 100 sectors of

Nunavik Regional and Private Business Directory
INTRODUCTION

activity.

Although the *Directory* is published semiannually, it exists as a standalone database which is being updated constantly. Those wishing to have their company listing added, amended or deleted are invited to fax the form located on the krg.ca web site to (819) 255-8059.

For a determination of Inuit businesses from the region, please consult the *Nunavik Inuit Enterprise* database maintained by Makivik Corporation.

We invite your comments and suggestions:
