- A friendly, committed, and collaborative work environment.

**FUTURE CHALLENGES**

Reporting to the Operations Supervisor, the Concentrator Operator is responsible for the various ore monitoring and processing operations. The main responsibilities of the job are:

- Ensure the proper operation of the concentrator equipment in all sectors (crushing, flotation, reagents, control room, presses, thickeners).
- Perform routine checks and inspections on the concentrator equipment.
- Maintain the various equipment of the concentrator in a clean and safe condition.
- Apply health, safety and environmental rules and guidelines.
- Carry out any other tasks required in relation to the position.

**PROFILE SOUGHT**

- Professional study diploma in Machine operations, mineral and metal processing combined with any relevant experience.
- Experience in operating an industrial process (mining/concentrator, metals, pulp and paper, chemical/petrochemical).
- Ability to identify and diagnose troubleshoot breakdowns and problems encountered with the various equipment.
- Valid driver's license.

**SKILLS**

- Work with a diverse and multicultural team.
- Autonomy, dynamism, positivity, respect, team spirit and versatility;
- Ability to work under pressure and maintain good interpersonal relationships;
- Definite orientation toward the respect of health-safety and environment rules and guidelines.
