#### PRIVILEGES & BENEFITS

- Competitive salary including bonuses and a full range of benefits (group insurance, generous pension plan, telemedicine, EFAP, etc.).
- Learning and coaching opportunities.
- A friendly, committed and collaborative work environment.

#### RESPONSIBILITIES

Reporting to the Chief Mining Engineer, the Mining Engineer is responsible for:

- Planning, organizing, designing, and overseeing underground and open-pit mining operations.
- Developing medium and long-term mining plans.
- Serving as a resource person for the mining engineering team.
- Coordinating interactions between the engineering department and other departments.
- Establishing medium-term production objectives to adhere to the Life of Mine (LOM).
- Generating monthly progress reports on operations.
- Monitoring and planning consumables according to the established plan.
- Contributing to the development of the operational budget and the engineering department.
- Carrying out any other tasks that their supervisor deems necessary to ensure the efficient operation of the Company's activities.

#### QUALIFICATIONS

- Hold a university degree (Bachelors) in Mining Engineering.
- Be a registered member of the Order of Engineers of Quebec.
- Have a minimum of 5 years of relevant experience.
- Possess excellent knowledge of short and medium-term mining planning.
- Have experience in underground mining.
- Experience in open-pit mining is an asset.
- Possess excellent knowledge of the Microsoft Office suite, Deswik CAD, and Deswik Scheduler.
- Hold modules 1 to 5 and 7 of the FMTM (Formation Minier de la Fédération des travailleurs et travailleuses du Québec).
- Possess a valid driver's license.

#### ASSETS

- Bilingualism (functional French and English).

#### PROFILE

- Work with a diverse and multicultural team.
- Autonomy, dynamism, positivity, respect, teamwork, and versatility.
- Ability to work under pressure while maintaining relationships with others.
