

JOB OPPORTUNITY

The Kativik Regional Government (KRG), a supra municipal body with jurisdiction over the territory located north of the 55th parallel, is now looking for a self-motivated and dynamic individual interested in joining the KRG to work in the capacity of:

**IMPLEMENTATION AND FACILITIES SPECIALIST
TAMAANI INTERNET SERVICES SECTION
(PERMANENT, FULL-TIME)**

Reporting to the Field Operations Coordinator, the Implementation and Facilities Specialist supports and maintains KRG's telecommunications networks, which serve in-community authorities, businesses and residences. He also works closely with KRG's Network Operations and Customer Service groups to assist with the day-to-day operations, and implementation of new services.

- Install, maintain and repair the following in-community network systems and components according to detailed engineering schematics and industry best practices:
 - Fiber distribution network, including:
 - Fiber plant core
 - Fiber-to-the-home (FTTH) distribution
 - Fiber to businesses
 - Fixed Wireless systems, networks and links (Point-to-Point and Point-to-MultiPoint systems), including:
 - Radios
 - Antennas
 - RF cabling (LDF, RG, LMR) and connectors
 - Mobile Wireless systems
 - LTE (data-only) distribution
 - Wimax NextNet systems
 - Fixed Satellite system links
 - Ethernet cabling
- Install FTTH networking equipment and related accessories and components such as fiber drops, Ethernet drops, jacks and cabling at the customer's premises
- Splice fiber lines and install drops to additional customers;
- Install network components such as switches, routers, access points and others under the supervision of the Network Operations group.
- Troubleshoot signal quality problems at customer's premises (Fiber, Ethernet and other technologies);
- Record discrepancies and report to Network and Field Operations groups;
- Keep an accurate stock record of installed equipment and stocks and issue low stock warning;
- Ensure regular preventative maintenance is done on existing network components;
- Interact with Network Operations Center (NOC) during outages, emergency interventions and reported problems;
- Participate in the evaluation of new technologies and the expansion of network systems;
- Keep site documentation of data and voice networks accurate and up to date and help develop diagnostic procedures;
- Carry out any other tasks requested by the supervisor.

REQUIREMENTS

- Possessing a College diploma in a related technology;
- Having a minimum of three (3) years' experience as a telecommunications technician;
- Hold a solid experience working with optical fiber technology installations and/or experience with coaxial cabling;
- Experience working with fiber splicer, OTRD, FTTH PON or GPON, Working knowledge of Calix technologies will be considered an asset;
